

**ADDED
VALUE**

**ADDED VALUE
@ BALLERINA**

FURNISHED TO YOUR DESIRE.

The way we organise our lives tells us a great deal about our wishes and demands. At the beginning of each new project, we ask ourselves: Which style and which colour scheme makes me most comfortable? Which convenience wouldn't I want to miss? What are the details that simplify my everyday life? It is important that aesthetics, functionality and ergonomics are in harmony – in particular in the kitchen. We have a number of ideas for “adding value” to your kitchen, in the truest sense. Look forward to your very own private comfort zone and discover the best of our ideas for cooking and living.

746

DIFFERENT FRONTS are available for selection. From velvet lacquer through to **SMARTGLAS**, from ceramics through to **RESOPAL®** – our front materials have been proving themselves in everyday kitchen use for years. All of the surfaces are easy to clean, colourfast and durable.

112+13

HANDLE VERSIONS add highlights as individual pieces of jewellery. Whether you select bar handles, minimalist grip ledges or country house knobs, the handles underline the style of a kitchen. There are 6 variants to choose from for handleless kitchen designs.

48

WORKTOPS create a solid foundation for everyday work in the kitchen. We pride ourselves on offering variety – whether with single colours, wood, concrete, metal or stone effect. One thing is for sure, all versions are robust and easy to clean.

26

FEEL
GOOD

CARCASE COLOURS are available to accentuate your front design. Whether the same decor inside and out, or designed with highlight shades, the carcass made of CARB2 panels is environmentally friendly, sustainable and creates a healthy indoor climate, in short: **FEELGOOD**.

4100

The RAL and Sikkens colour palettes include 4100 **COLOUR SHADES** for lacquered surfaces in microstructure, velvet, matt and high-gloss lacquer versions, as well as wood. Our veneer and lacquer colour concept leaves nothing to be desired.

SUPREME CARCASE. IMPRESSIVE IN EVERY DETAIL.

Join us and take a look inside our kitchens' cabinet interiors and witness all of the many benefits that are waiting for you. Made from environmentally friendly CARB2 panels, the **FEELGOOD** carcass demonstrates "Made in Germany" quality in every last detail. Added attraction: the carcass colour can be selected individually, at no extra charge. Designs with the same front and interior decor have a particularly elegant look. The integrated cushioning is also included as standard.

Convincing CO₂ balance for a positive and sustainable footprint:

- Incredibly low emissions
- With a high recycling content
- CARB2 and FSC-certified

8 FACTS

THE LEGRABOX: IMPRESSIVE IN BOTH LOOK AND FUNCTION

PULL-OUT VERSIONS

BASIC MODULE

BASIC MODULES. Clean-lined design with a distinctive shape and surprisingly smooth running – these are the characteristics of our elegant LEGRABOX pull-out system with full pull-out and cushioning included. Its under-floor guide system offers the highest level of comfort with low opening forces from the very first millimetre. The perfect synchronisation provides noticeably smooth easy running.

PURE ART

01 The LEGRABOX PUREART system in the ART version offers the advantages of a full pull-out in conjunction with the smoothest cushioning.

FREE ART

02 LEGRABOX FREEART – FREE design: with glass inserts on the sides.

PURE WOOD

03 LEGRABOX PUREWOOD – The WOOD design made with real oak veneer is a world first! It features all the advantages of an indestructible steel frame.

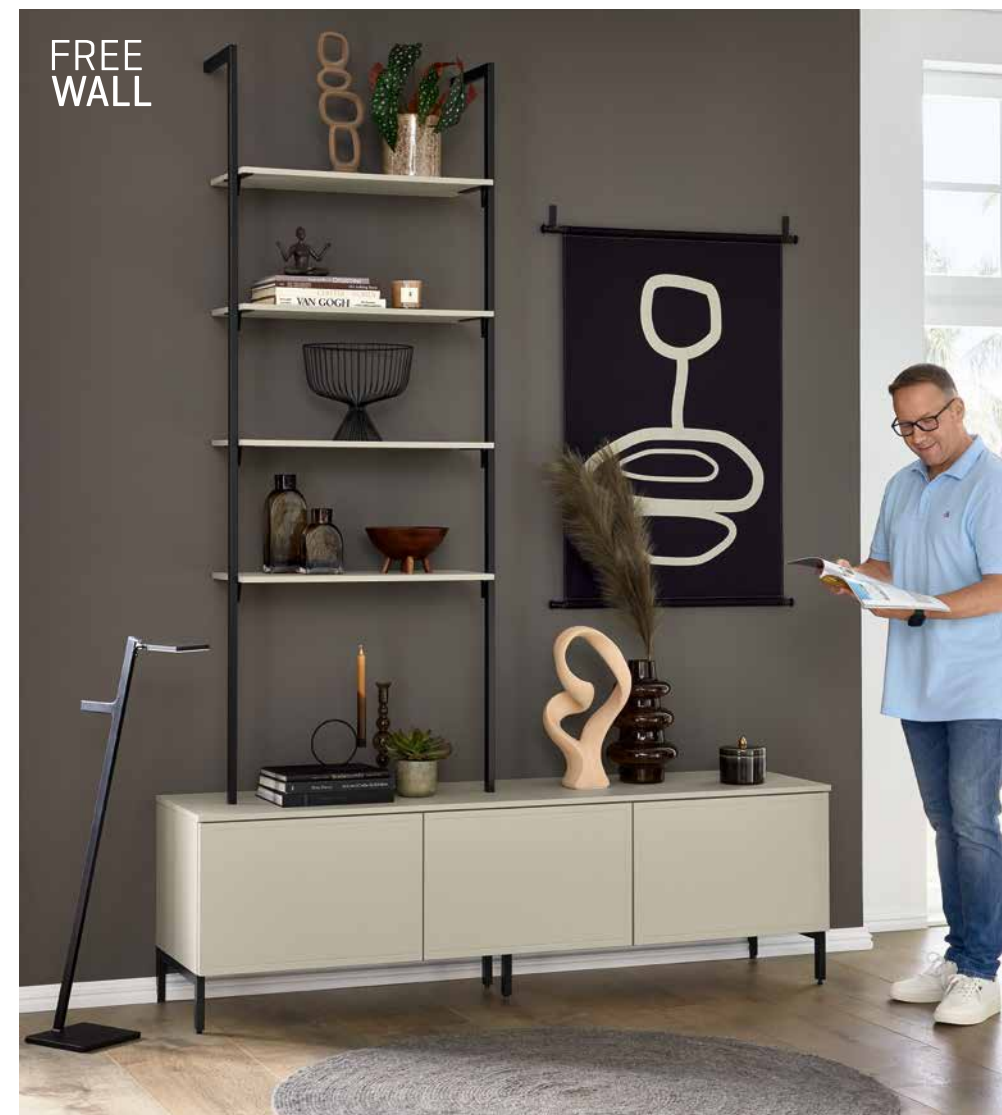

DESIGN MODULE

LEGRABOX DESIGN MODULES. To perpetuate the overall harmony, interior partitioning systems have been designed especially to match the design of the drawers and pull-outs. Organisation systems in various materials and versions are available, for example made of high-quality laminate or solid wood.

ELEMENTS BY BALLERINA

The solution for your furnishing ideas. Contemporary multifunctionality is more important today than ever. With its Element concepts, Ballerina is providing an intelligent link between cooking, living and working at home. Each and every detail is thought through to perfection: For example, stand-alone elements are transformed into versatile furnishing ideas.

ERGOPLUS: BARRIER-FREE CONVENIENT BASE UNITS

ERGO
PLUS

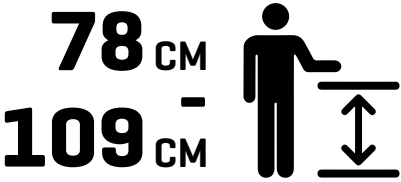

Angled base units provide legroom and enable, for example, you to wash up while sitting down or using a standing aid. An ergonomic solution that leaves no margin of doubt.

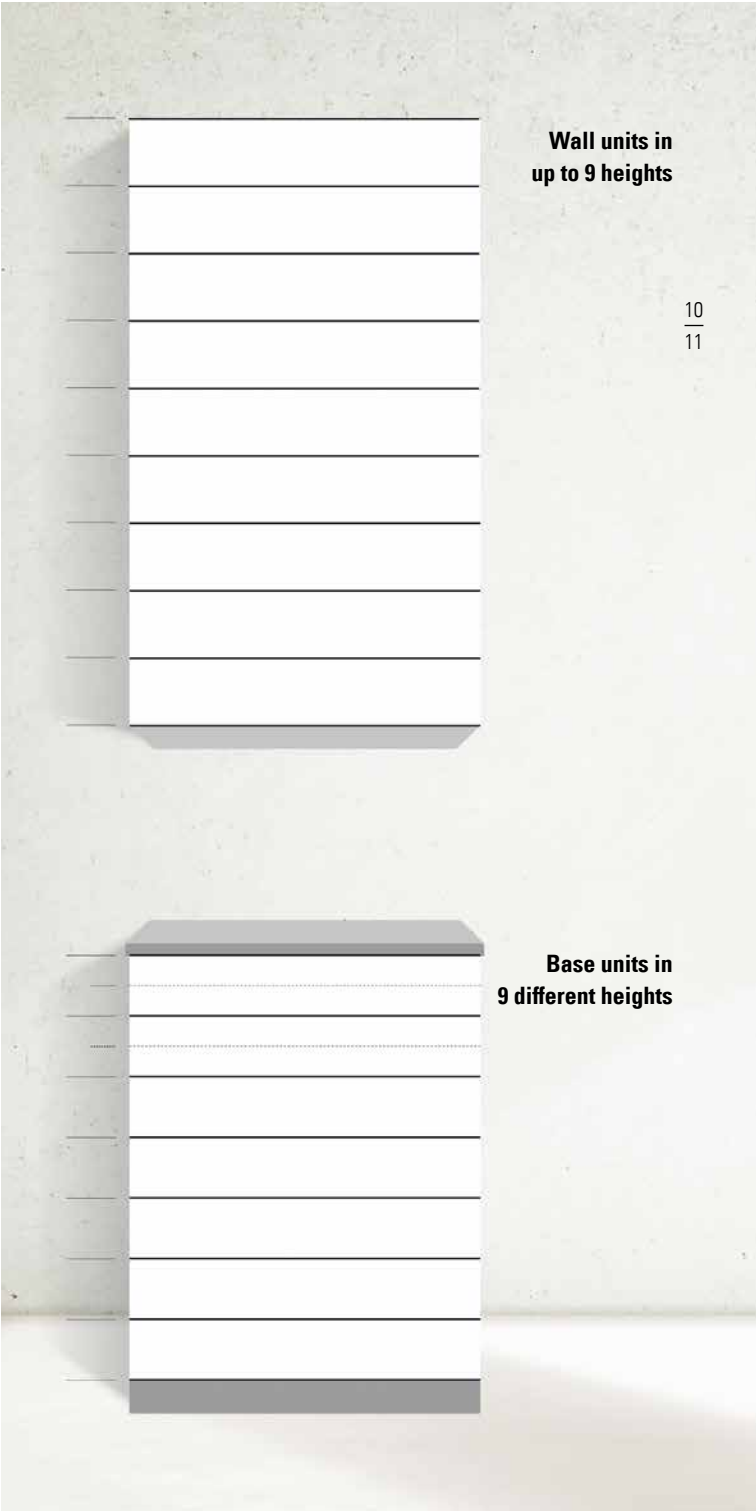

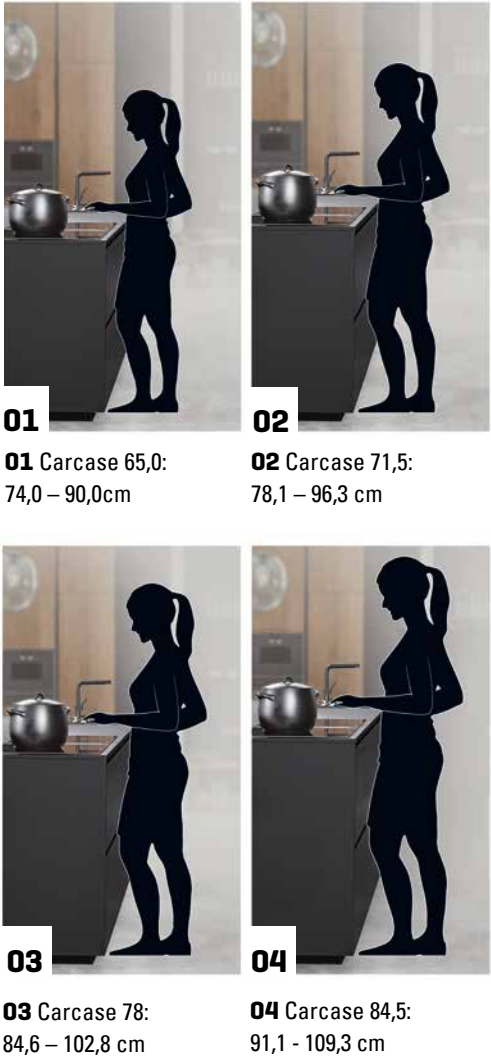

WORKING HEIGHTS: CUSTOMIZED PLANNING WITH OUR GRID SYSTEM

Our grid systems enable all possible working heights for your kitchen. Thanks to our consistent grid division systems, there are no limits: There is a choice of nine different heights for tall and base units and ten different heights for wall units. Your specialist retailer will be happy to advise you.

You should determine your ideal working height before planning your kitchen.

THE SURFACES:
EXTREMELY ROBUST,
EASY TO CLEAN AND ELEGANT

EXTREMELY ROBUST SURFACES

ORIGINAL
RESOPAL®

THE INDESTRUCTIBLE
GENUINE RESOPAL® KITCHEN

Extremely robust ORIGINALRESOPAL® laminates create delight for the entire lifetime of a kitchen with their high-quality appearance and ease of care. It's so easy to keep them hygienically clean. They are insensitive to knocks and stains, and are scratch-resistant, heat-resistant and antibacterial. In many colours and decors.

DIRECT
LACK

THE PREMIUM SURFACE
FOR YOUR KITCHEN

Whether in high gloss or matt design, DIRECTLACK appeals in terms both of aesthetics and functionality. The surfaces, which are available in lots of colours, are notable for their high resilience and resistance to micro scratches. They are impact-resistant, insensitive to fingerprints and stains, and easy to clean. An investment for life.

SMART
GLAS

REFINED AMBIENCE

SMARTGLAS is a future-orientated polymer glass that combines a wide range of appealing features. The alternative to real glass fascinates with its exclusive appearance in a high-gloss or matt satin finish. SMARTGLAS is extremely resilient, impact-resistant, scratchproof, antibacterial and easy to keep hygienically clean. Clever: it can be written and drawn on with whiteboard markers, and chalk can also be used on the satin-finish surfaces.

SHAPING THE FUTURE REQUIRES RESPONSIBILITY

Doing instead of talking: we rely on renewable raw materials from PEFC-certified, sustainably managed forestry, and over 70 % of the materials we use are already recycled. The melamine-coated chipboard that we use in furniture construction is CARB2-certified, and in fact boasts a better carbon footprint than untreated solid wood panels.
